

30th July 2015 at 16-18

Organization office of WC2015

Carrera 36 #

Cali / Colombia

Participants

HÜLS Rüdiger

ALTMANN Ernesto

CAVAS Levent (via Skype)

RIIKONEN Riku

TITO de MORAIS Manuel

Minutes of Meeting

1. Report of rules meeting

- All proposals went through

2. Report of federations meeting

- Long time planning have to be done if federations give a support, Commission / CMAS can't decide next championships if there is no applications.
- Federations should apply championships
 - America should have their own continental championships 2017. Discussion that American continents should have also own continental championships at same time than Europe. Has to be also applied from CMAS to host this championships.
 - WC 2019
 - EC 2017
- Discussion about how to do championships in the future
 - Dividing teams to A and B level was discussed, but not supported. Most federations don't want this.
 - In future there is more federations, how to limit participants (only idea). Needs continental championships.
- Rüdiger Hüls brought out that Championscup and Euroleague could be under CMAS flag as official tournament / league

→ UWR Commission discussion with no real conclusion

- Winfried Zülke (BUR Berlin/Championscup) don't want to move tournament to under CMAS.
- Questions what and why should be paid to CMAS?
- Question is also what CMAS want to have if getting Championscup to their own tournament. Are there some ideas to develop tournament?
- Discussion how Euroleague could be implemented under CMAS.
 - Should be analyzed why this league was created at the first place and what was the situation CMAS could offer to top teams. CMAS should avoid remaking same errors in the future.
- Why not create own league / cup?
 - Idea to have new Championscup for clubs where are good teams and full game time. What is the thing that teams could come to this new league / cup if there is working solutions already even if not under CMAS?

3. Review of X. CMAS UWR World Championships in Cali

- Venue is excellent and championships are doing mainly great
- Streaming is not working properly
- Access points are not guarded, only gates for local viewers

4. Championships in the future

- OECJ 2016 in Oslo (not applied yet)
- EC 2017 in Sweden (not applied yet)
- OECJ 2018 (not applied yet)
- WC 2019 interested by USA/RSA/AUS (not applied yet)
- Other issues
 - Long time planning that we know what will happen to next 3-4 years
 - should have public deadlines for applying championships
 - Also public information if someone has applied championships before final decision
 - Need to find a way how to publish these things easily. CMAS web pages are not maybe the best way to communicate between federations if it is the only way. Maybe solution with many access points (CMAS website, UWR Commission facebook, direct contacts by email)
 - UWR Commission should have plans for game plan that we shouldn't do every championships from the scratch
 - UWR Commission have to prepare demands for LOC about Live streaming and results service
 - Live stream (times, score, scorer)
 - Results service
 - Results on venue (pigeon boxes, wall)

Decision

CMAS UWR Commission with CMAS BoD have to do public deadlines for applying championships, when federations should apply championships. Also when any federation will apply championships the information should be made public in CMAS website, CMAS UWR Commission Facebook group.

5. Guidelines for organizers of international championships

- Commission have to do a manual how to organize int. Championships for LOC
 - Responsible persons
 - Communication lines

Decision

Riku Riikonen starts to gather old information of CMAS UWR Commission to find out what we already have.

6. Ranking for the next Championships

- Discussed in federation meeting
- Now we have ranking based only at last championships
- Swedish Andreas Tael has been made ranking based on football ELO-system
https://en.wikipedia.org/wiki/World_Football_Elo_Ratings
- Example alltime WC male teams
<http://www.tael.se/elo/index.php?alt=showScore&range=allTimeMale&sort=cmas>
- Other example FIFA ranking https://en.wikipedia.org/wiki/FIFA_World_Rankings
- Overview of some methods for ranking
http://www.phys.utk.edu/sorensen/ranking/Documentation/Sorensen_documentation_v1.pdf
- Maybe ranking should include last 3 championship

- Drawing for championships should be public but still game plan should be ready before championships
- Intent to participate and Participation forms and those official deadlines should be obeyed in the future with no exception. If there is no properly filled participation form with payments, there is way to participate in those championships.

Decision

Before official decision and suggestion to BoD, the ranking systems should be evaluated

7. Next meeting

- Meeting will be held during Championscup in Berlin late of November at Saturday.

8. Miscellaneous

- International referees should be updated on CMAS webpages. Rüdiger Hüls will contact office to do this with information from Manuel Tito de Morais.
- Manuel Tito de Morais will work on updated rules and sending them forward to federations.

Rüdiger Hüls
Chairman

Riku Riikonen
Secretary
